# ABHISHEK MINERALS

## ABOUT US

Rajasthan is a leading producer of industrial minerals in the country. The Aravali Region having the oldest geological formations in the subcontinent has massive deposits of such minerals. Rajasthan is the largest producer of **Dolomite Powder /SoapStone/Anti Moisture Powder** in the country, which produces 88% of the total output of the country. The mining leases of these minerals are concentrated within a radius 150 kms of the **UDAIPUR City**.

**ABHISHEK MINERALS** was established in the year 2015 for manufacturing, processing and exporting of Dolomite Powder, Soap Stone Powder (Talc), Calcium carbonate powder etc.

Customer satisfaction is our motivational power. We are committed to give the great service with timely delivery. Our products are of a great quality. Customer will not have to compromise for the quality of the product.
